REPORT

OF THE

BOARD OF ADMINISTRATORS OF THE CHARITY HOSPITAL,

For the Year Ending December 31st, 1887.

CHARITY HOSPITAL,
STATE OF LOUISIANA,
February 6, 1888. }

To His Excellency S. D. McENERY, Governor of Louisiana, Ex-Officio President of the Board of Administrators of the Charity Hospital of New Orleans:

Your Excellency—In compliance with the law it is again my pleasing duty to present the annual report of the workings of the Hospital for the past year. Owing to the warm interest in the welfare of this Institution manifested by your Excellency, and the generous sympathy and support of our fellow-citizens throughout the State, the Board of Administrators have been enabled to put the Hospital in such a condition as to make it compare advantageously with the most favored establishments of its kind, whether in this country or in Europe. As Louisianians, the Board make this statement with legitimate pride; for the far-reaching charity of the Hospital rendered it necessary that in every detail all its departments should be abreast of the improvements made in our times by medicine and surgery. The various changes and additions which have been completed during the past few years, and reported upon to your Excellency, are lasting memorials of the liberality of the citizens of this State, who, by their generous contributions, have enabled the Board of Administrators to make such improvements as the necessities of the Institution required. It is unnecessary to recapitulate these various improvements, as they have been fully mentioned in the past. During the year 1887 the total number of admissions was 5360; to this figure must be added 639

patients who were in the Hospital on January 1, 1887. On December 31, 1887, there were 722 patients remaining in the Hospital. During the year there were 941 deaths, making the percentage about 15 per cent. The outdoor clinic has continued to enlarge the benefits conferred by the Hospital upon the public, while at the same time it has relieved the Institution from many charges which otherwise would have, at times, overcrowded its wards. During the year 1887, 12,085 patients were treated by this clinic. Its advantages have been further extended by the addition of a Department of Dentistry, whose success fully attests its necessity.

The hospital has labored under the disadvantage of having to sell its warrants at a discount. Reference is made in this connection to the Report of the Treasurer, wherein the losses from this cause are fully detailed and the financial condition of the establishment is clearly stated. Fortunately, there is a brighter outlook for the future in the matter of warrants, and it is believed that the hospital will be relieved from many of the disadvantages which the depreciation of warrants formerly entailed.

It is gratifying to be able to state that, notwithstanding the numerous improvements made in the last six years, the hospital is almost entirely free from debt, and the wiping out of the small balance, still due on these improvements, may be confidently looked for in the near future. Attention is called particularly to the subject of leprosy, which will be found detailed in the Report of the House Surgeon. The Board of Administrators fully concur with that gentleman's conclusions and recommendations on this important matter.

In view of the greater efficiency of the class of Hospital students, it is earnestly hoped that the Legislature may reconsider its action in regard to the appointment of Louisianians only to this important element in the economy of the institution. It is believed that reflection will demonstrate the neces-

sity of admitting only the very best men to minister to the wants of the afflicted within the Hospital precincts, and whilst the Board of Administrators would willingly do injustice to no one, still the liberal scientific spirit of the age would seem to demand that all be considered as brothers in science, and that no artificial boundary line be erected to oppose the admission of non-Louisianians as students. The Board is anxious not be misunderstood on this important topic, and while they would willingly see Louisianians fill the ranks of the Hospital students, still they would desire that justice be done to all, in order that the Hospital might enjoy the services of the best talent to be obtained, and for that purpose they would revert to the time honored axiom "May the best man win," believing its adoption would eventually prove as satisfactory as it would be in accordance with the liberal scientific spirit of the age.

The labors of the board have been greatly assisted by the gentle ministrations of the good Sisters of Charity, whom it were needless to praise. The courtesy, efficiency and zeal of the House Surgeon, his Assistant, and the staff of students, are deserving of special commendation.

The Ambulance Corps have done their work well, and their services are gratefully acknowledged. The Secretary and Treasurer, the Pathologist, the Clerk, the Apothecary, the Engineer, and all the personnel of the Hospital, are deserving of the most favorable mention for the great care and fidelity with which their respective positions have been filled. The Hospital Library has been fostered, and it is hoped that its sphere of usefulness will gradually become greater, for it is proper that the Library of the Charity Hospital in New Orleans should become the centre of medical literature in the South and Southwest.

With assurances of great respect, I remain your Excellency's humble servant,

THOMAS LAYTON,
Vice-President.

REPORT OF THE SECRETARY AND TREASURER.

CHARITY HOSPITAL,
STATE OF LOUISIANA,
NEW ORLEANS, February 6th, 1888. }

To the Vice President and Board of Administrators :

Gentlemen—I would respectfully present the following *résumé* of financial matters for the year ending December 31st, 1887 :

STATE WARRANTS 1886.

The warrants for this year (\$43,750) were reported in the Annual Report for 1886 as hypothecated to the Louisiana and Hibernia National Banks, at about sixty-three cents on the dollar, producing a total outstanding liability of \$27,625.

As the year progressed, it became apparent that the warrants were depreciating in value, and upon the receipt of reliable information it was deemed prudent to dispose of them and make the unavoidable loss. They were sold March 25th with the following result :

\$43,750 warrants 1886, at fifty cents on the dollar,
producing\$21,875 00

This account therefore resulted as follows :

| | |
|------------------------------------|-------------|
| Due on hypothecation to banks..... | \$27,625 00 |
| Credited by above sale..... | 21,875 00 |
| | <hr/> |
| | \$ 5,750 00 |

Due Louisiana National Bank.....\$3,562 50

Due Hibernia National Bank.....2,187 50

\$5,750 00 bearing 8

per cent. per annum interest.

STATE WARRANTS 1887.

The entire issue of this appropriation for the year 1887 (\$40,000) has been pledged to the Louisiana National Bank, from time to time, at seventy-five cents on the dollar at six per cent. per annum interest, producing a round sum of \$30,000. The bank has been continually assured that the State will be able to pay these warrants in full; in that event the outstanding liabilities to the banks on account of both years, 1886-1887, will be paid.

DISCOUNT ACCOUNT.

The expenditures on this account produced by the loss on warrants for 1886 (\$21,875), and for interest paid on loans from banks, foots up the large sum of \$23,941 26 for the year.

LEASE OF UNION COTTON PRESS.

This lease was reported in the last annual report as made for five years, expiring September 1, 1891, at \$3270. 31 per annum, an increase of \$670 per annum over the previous lease. In the month of June of the past year, the Board, as representatives of the State's co-ownership in the property, received a communication from Mr. A. P. Mason, the lessee, detailing the unpromising condition of the Cotton Press interests, and praying for a reduction in the amount of his rent. On June 28th, a conference of the representatives of the owners, viz:

| | |
|-----------------------------------------------|---------|
| The Charity Hospital..... | 13 lots |
| The St. Mary's Cath. Orphan Boys' Asylum..... | 6 " |
| The Female Orphan Society..... | 10 " |
| The Henderson Poor Fund..... | 3 " |
| In all | 32 " |

was held in the Treasurer's office of the Hospital, and after mature and careful consideration it was concluded to meet the prayer of the petitioner to the extent of 25 % reduction for the first two years, and 20 % reduction for the second two years of

the remainder of the lease, from the first of September, 1887. The action held was ratified by all concerned in the lease. The reduction on the Hospital's interest in the lease is \$2943 20 for the remaining four years from September 1st, 1887.

LEGACIES.

The remainder, \$250, due at the last annual report from the estate of Mrs. Caroline E. Simms, was paid March 31.

The legacy of Mrs. Charlotte Piffet of \$3000, heretofore reported, had to be finally compromised, and was abated by resolution of the Board November 7th, to sixty cents on the dollar. On December 23d, the Hospital received \$1800 as the full amount due. Both legacies were credited to the Ambulance Building Fund.

AMBULANCE BUILDING FUND.

| | |
|-------------------------------------------------------------------------------------|-----------|
| At the date of the last annual report the indebtedness reported was..... | \$6023 26 |
| During the past year there has been paid of this | 5202 68 |
| Leaving a balance due on the building to Messrs. Muir & Fromherz, builders, of..... | \$820 58 |

GENERAL IMPROVEMENTS OF THE HOSPITAL.

The expenditures on this account for the past year sum up \$5811. 61, and is the aggregate expended for ordinary repairs and additions to the buildings, machinery, kitchen, etc., etc.

AUCTIONEERS' RETURNS.

This source of income shows a falling off from the previous year, the comparison being as follows:

| | |
|---------------------------------------|-------------|
| For the year 1886..... | \$11,588 36 |
| For the year 1887..... | 9,231 03 |
| Loss in revenue on this account | \$2,357 33 |

TABLE OF RECEIPTS AND DISBURSEMENTS.

These tables exclude the expenditures for December, 1887, and as regards the ordinary accounts present a general parity with the previous year, the only departure being the extraordinary loss on discount.

These tables are herewith presented, together with the "Balance sheet of the Books to December 31, 1887," the "Table of Property, etc.," "Statement of Insurance," and "List of Legacies, Donations, etc., to the Ambulance Building Fund," for 1887.

Respectfully submitted,

EDWIN MARKS,

Secretary and Treasurer.

REPORT OF THE HOUSE COMMITTEE.

CHARITY HOSPITAL,
STATE OF LOUISIANA,
NEW ORLEANS, February 6th, 1888. }

To the Vice President and Board of Administrators:

Gentlemen—Your House Committee beg leave to report the following special improvements to the Hospital during the year 1887, in addition to the ordinary painting, kalsomining and general renovations of the interiors of the main building, engine-room, kitchen, etc.:

There has been a complete set of necessary furniture placed in the lately established Dental ward.

A new and substantial market wagon, to replace the old one, has been built and is now in service.

The buildings on Howard street, contiguous to Roberts' Factory, have been sheathed with corrugated iron, rendering them exteriorly fire proof in event of a fire from that direction.

During the year a photographing apparatus has been added to the Pathological Department. Its purpose is the preservation of rare specimens which cannot be preserved by any other known process, and will doubtless prove of great value in that particular.

Ambulances Nos. 1 and 2, built at the North, have been completely repaired and painted and are now in first-rate order.

The service itself is being performed with clock-like regularity, and has met with the commendation of the entire community. We would urge upon the public a generous support of this humane adjunct to the Hospital, which has in the main to be supported out of the regular revenues.

Respectfully submitted,

SAMUEL BOYD,
JOSEPH M. RICE.

REPORT OF THE FINANCE COMMITTEE.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, February 6th, 1888. }

To the Vice President and Board of Administrators:

Gentlemen—A reference to that portion of the report of the Secretary and Treasurer, as regards the State warrants for 1886, confirms in startling figures our often-uttered warnings as to the financial danger accruing to the Hospital on this account. He shows a clear loss of near \$24,000 in the revenue on this account, inclusive of interest paid banks on loans. It is a matter of serious moment to the safe conduct of the institution, which has too long been run on contingencies—contingencies based on realization of nominal values for the State's warrants. The Hospital's extrication from a present floating interest-bearing debt of near \$6000 on the warrants of 1886, is based upon a par redemption of the warrants for 1887, which we are promised will take place. The Board of Administrators should not be hampered or agitated by apprehensions as to the revenue, but should at all times rely with confidence upon the State's appropriation *as in dollars and cents*.

It behooves the General Assembly to provide positively and reliably for the support of the institution.

The expenditures of the Hospital, based upon results for years in the past, can be approximated at about \$110,000 per annum; less than that amount provided, jeopardizes its management.

Respectfully submitted,

J. T. GIBBONS,
THOS. L. AIREY,
H. W. FAIRCHILD.

DONATIONS.

RECEIVED AT CHARITY HOSPITAL IN 1887.

- Through Mr. Gibbons, bucket of quite.
Mrs. D. Sheehan, \$10.00.
Mr. Theo. Newman, \$10.00.
Miss C. Stauffer, 20 yards of white muslin for boys.
Miss C. Stauffer and companions, making shirts of the above.
Miss C. Stauffer, "St. Nicholas," one year for boys' ward.
Daily States, sundry copies of daily papers.
Society of the Holy Family, 5 copies weekly, "Holy Family."
Through the mail, 6 copies semi-monthly "Sunday School."
Mr. Maller, \$10.00.
Messrs. Harper Bros., New York, complete numbers one year "Harper's Young People."
Messrs. Harper Bros., large quantity "Harper's Bazaar."
Mrs. Sawyer, old linen for charpie.
Mrs. L. C. Robinson, books and sundry reading matter.
Mr. H. Uthoff, spring cushion, at \$25.00, for ambulance house.
Mrs. Geo. Denegre, infant trousseau.
Mrs. Geo. Denegre, fruit, cakes and sundries for children.
Miss M. Rawlins, flowers, cigars and men's clothing.
Mr. Shansy, men's clothes.
Fathers of St. Joseph's Church, reading matter weekly.
Mrs. Jos. Moran, Fort St. Philip, one barrel oranges and box eggs.
Mr. Geo. Koch, two barrels turnips and sundry vegetables.
Miss M. Rawlins, fruit, cakes and sundries.
Mrs. A. Seigel, large cake and sundries.
Mr. Bergamini, butter, cream and butter-milk.
Mr. L. Ruch, fruit at sundry times.
Captain O'Pry, St. Alvin, large bunch red snappers.
Messrs. A. C. Denman & Co., Newark, N. J., bread cutter at \$7.00.
Mrs. J. Pellett, Iberia Parish, 18 dozen eggs.
Mr. A. Bergamini, cream and fruit, case strawberries.
Mrs. Gillis, 12 boxes strawberries for boys.
A gentleman, \$2.00 for children.

Mrs. J. A. Phillips, reading matter.

Madame Peteetor, seven little dresses for children.

Miss Minnie Carroll, basket choice fruit.

Mrs. H. V. Ogden, bundle of old linen, very fine.

Mrs. Smith, New York, \$5.00

Mr. L. Ruch, fruit at sundry times.

Mr. A. Bergamini, fruit, cream, butter and buttermilk.

Mr. A. Bergamini, paid all expenses for children and old ladies, who spent a day at West End, and furnished five gallons ice cream and plenty of cake.

Mr. J. A. Walker, free ride to West End, children and old ladies.

Mrs. Geo. Denegre, carriage ride for children semi-monthly.

Mrs. Daponta, carriage ride for old ladies semi-monthly.

Miss M. Rawlins, fruit, cake, flowers and clothes.

Mr. A. Bergamini, two gallons cream.

A friend in Washington, D. C., 53 fancy linen bibs for children.

Mr. J. A. Walker, six crutches.

A. Lehmann & Co., two bolts calico for children's dresses.

P. F. Simon, \$1.00.

Mrs. Gillis, one dozen bottles Bass' ale.

Mr. J. C. Febiger, cast steel coal scoop for fire room.

Capt. Allen Jumel, one barrel syrup.

Mrs. Parlongue, tailor cuttings, sundry times.

Mr. George Koch, vegetables and fruit sundry times.

Mr. A. Bergamini, two gallons cream and fruit.

By express, unknown, large bunch bananas.

James Horan, large bunch bananas.

A. Bergamini, large bunch bananas and crate of grapes.

Mrs. A. Siegel, tailor cuttings.

Mr. Jos. M. Rice, pair geese.

Mrs. A. E. Bignon, bundle of nice linen.

Mrs. Geo. Denegre, two gallons ice cream for boys.

Messrs. Garcia & Fauche, ambulance record, handsomely bound, \$15.00.

A. Bergamini, 10 gallons butter-milk, 7 pounds fresh butter.

A. Bergamini, 10 large turkeys.

Mr. Geo. Koch, sundry fruits and vegetables.

Mr. A. Bergamini, barrel grapes, bananas, nuts and pears.

Mrs. Jos. Moran, Fort St. Philip, barrel oranges.

- Mr. Geo. Koch, box oranges.
J. Jané, bag cakes and five pounds candy.
Bernard Klotz & Co., 50 loaves sweet bread.
Jos. M. Rice, box assorted cakes, 16 pounds.
William Moore, five pounds candy for children.
Mrs. Gillis, case of toys for children.
Jean Bur, two large turkeys.
Owen Cahill, two large turkeys.
L. Ruch, six large turkeys, bananas, oranges, etc.
Mrs. D. Daponta, large turkey for old ladies.
Mrs. A. Siegel, large cake and sundries.
Lady and four children, dolls and children's clothes.
Mrs. Seaman's kindergarten and the Froebel Club, Christmas tree and decorations, toys, dolls, etc.
Mrs. Geo. Denegre, suit of boys' clothes.
Mrs. Stanhope Jones, suit of boys' clothes.
Miss Mary May, suit of boys' clothes.
Miss Alice Borde, suit of boys' clothes.
Miss Bohne, suit of boys' clothes.
Mrs. Edgar Farrar, two suits of boys' clothes.
Mrs. G. Aitkins, suit of boys' clothes.
Mrs. Ashton Phelps, suit of boys' clothes.
Mrs. Charles Carroll, suit of boys' clothes.
Mrs. D. Jamison, suit of boys' clothes.
Mrs. S. P. Walmsley, suit of boys' clothes.
Mrs. Farrar and Mrs. Carroll, suit of boys' clothes.
Miss Cottraux, suit of boys' clothes.
Miss Jamison, suit of boys' clothes.
Miss Helen Leeds, suit of boys' clothes.
Mrs. Albert Vaught, suit of boys' clothes.
Mrs. Edgar Farrar, turkey and fruit for boys.
Mrs. Geo. Denegre, chocolate cigars for boys.
Mrs. Wm. Müller and daughters, sundry clothes, shoes, stockings, handkerchiefs, etc., for children at Christmas.
C. Doyle & Co., large pound cake.
Seabury & Johnson, New York, roll of prepared mustard, plaster.
T. L. Airey, Jr., six cards, handsome fancy articles.
Wm. Duryea, New York, \$4.15, paid for freight on Maizena from New York.

Mr. Fauche, 500 French books for patients.

Through Mr. Gibbons, bucket quite.

The ladies of the Flower Mission visit weekly, bringing flowers, fruit, etc., and on December 29th brought a little bag of fruit for each patient in the house, numbering over 700.

The society is directed by Mrs. Jones.

We also receive weekly, sundry reading matter from the boxes placed by Mrs. Geo. Denegre in several of the public buildings of the city.

LIST OF CONTRIBUTORS

TO THE

CHARITY HOSPITAL MEDICAL LIBRARY IN 1887.

Mr. John Johnson, five volumes.

Dr. S. M. Abbay, twenty-two volumes.

ANNUAL REPORT OF THE HOUSE SURGEON.

CHARITY HOSPITAL,
STATE OF LOUISIANA,
December 31, 1887. }

To the Vice-President and Board of Administrators:

Gentlemen—At the close of another year, I have the honor to submit the annual records and report generally on the medical management of the Hospital.

The total number of inmates treated was 5999, including 639 remaining at the last report, and 5360 new patients admitted. The inmates comprise 4078 white and 1921 colored; males 4168 (white, 2919, colored 1249); females 1831 (white 1159, colored 672); children under ten years of age 108.

The admissions were 447 less than the previous year; 783 less than in 1885; 1920 less than in 1884. The continued reduction in the number of admissions indicates the good health of the people of the State, and the regions tributary to this city. No epidemic has prevailed among the patients; only the diseases incident to our soil and climate, of which pulmonary, intestinal and malarial affections are the most common.

The daily average of inmates was greatest in December—734; smallest in June—572. The daily average of inmates during the year was 638; 12 the daily average of admissions.

Of the 5999 inmates treated, 4336 were discharged; cured, 2365, or nearly 55 per cent.; improved, 1434, or more than 33 per cent.; unimproved, 537, or a little more than 12 per cent.

There were 941 deaths—a total mortality of 15 per cent. Of the total deaths, 175 occurred on the day of admission; 55 on the following day. Deducting the 230 deaths of patients admitted

in extremis, the total mortality is reduced to 11 per cent. The reception room, opened under your direction, has been very useful in the care of moribund patients and those admitted at night.

The records of the Outdoor Department, submitted herewith, show the attendance of 12,085 visiting patients. We have aimed at a better organization of the outdoor clinics, where many patients are now treated, at little or no cost to the Hospital, who would otherwise be admitted and maintained as inmates. By your direction, the range of usefulness of the Institution has been widened, and that by a system which proves an economy in its management. The indoor and outdoor patients should be treated separately, as far as practicable, that the more seriously ill of the inmates may not be disturbed by the presence of visitors. The necessity of separate buildings for the Outdoor Department, as provided by some of the best metropolitan hospitals, becomes more and more apparent. The erection of these buildings, upon a plan providing for the exigencies of the outdoor service, would entail an expense beyond the ordinary resources of the Hospital. The City of New Orleans, whose people chiefly are the beneficiaries of this charity, should, by contribution, aid your efforts to provide better facilities for the medical relief of the outdoor poor, and those in control of municipal affairs should be impressed with the obligation resting on them.

Counting the 5999 inmates and 12,085 treated in the outdoor clinics, the medical work of the year, stated briefly, comprises the care of 18,084 patients. Comparison with reports from similar institutions elsewhere, strengthens the conviction that our present system of hospital management entails the least expense with the widest distribution of its charities.

The report of the Ambulance Service shows the increasing usefulness of this branch of the medical department. During the year, 1216 patients received its benefits; 2940 since the

inauguration of the service on February 2, 1885. The service is still being conducted under the rules and regulations originally adopted, which reserve the ambulances for cases of emergency only, but which give the use of them, without charge alike to all who deserve the benefit, whether they desire to be brought to the Hospital or conveyed from the place of accident to their homes. When our Engineer has fitted up each ambulance with an electric battery for the treatment of cases of narcotic poisoning, the equipments will be nearly complete. I have only words of commendation for the ambulance corps, who, day and night, have discharged their duty faithfully and efficiently.

The various works of improvement accomplished under your administration have in past reports become matters of public record. Some necessary improvements, suggested in previous reports, yet remain unaccomplished, the completion of which would help very much to bring this house up to the modern standard of hospital construction. In this connection, I beg to mention the necessity of an improvement in the ventilation of the main building; new water closets in connection with the sewer system; improved stationary and portable baths. With the excellent steam attachments of the Hospital, a system of vapor and other hot baths, for the treatment of special diseases, could be constructed at comparatively little expense.

Since my last report, a Dental Clinic has been established under the direction of Dr. A. G. Friedrichs, and many who formerly suffered at our willing but unskillful hands now receive proper treatment.

Your attention is respectfully directed to the fact that twenty-two cases of leprosy were treated at the Hospital during the year, and reported by our dermatologist, Dr. H. W. Blanc. The following is an extract from his report: "Of the twenty-two cases of leprosy here reported, twenty now reside in this

city, and all, with the exception of two, are still living. Four cases are now being treated in the dermatological wards of the Hospital. Eleven were white males, four of them being boys under seventeen years of age; five were white females. Of negroes there were two males and two females. Natives of New Orleans, 10; of Louisiana, elsewhere, 5; of Germany, 5; of England, 1; of St. Louis, Mo., 1. In eleven cases the tubercular form predominated; in four cases the anæsthetic form was more marked, and in the remaining six both forms of the disease were equally well manifested."

The Legislature of the State should be informed in regard to the number of lepers among the people, and urged to provide for the care of these patients in a home remote from public thoroughfares.

A matter of great importance to the medical management of the hospital, to which your attention is specially directed, is the operation of the law by which the appointment of resident students is restricted to Louisianians. Under this system of restriction, the honor which usually attaches to residence at the hospital has been so much diminished that the Louisiana students, who are themselves the beneficiaries, prefer to enter in open competition with their classmates. Louisianians have always stood creditably in the competitive examinations, as evidenced by the fact that a majority of the resident students of past years have been residents of the State. The rivalry for preferment in an open competition has always stimulated them to excellence in class standing. The present law secures the appointment of a few students in advance of their preparation for the practical duties which devolve upon them, when by the system of open competition the same students would probably enter a year or two later, and then be better prepared to render competent service and profit more by the practical advantages offered. My observation is that most of the Louisiana

students who set their hearts and heads on entering the hospital in open competition, have usually succeeded. The law is equally unjust to a few students of this State, in hurrying them into responsible positions for which they are ill-prepared, and to the patients whose lives are committed to our keeping. The benefits offered the students of Louisiana do not, in the measure contemplated, redound to the advantage of the people of the State. The field of medicine is not divided by State lines, and the graduates of the State University scatter over this Southern and Southwestern country wherever opportunities for practice offer. Some of those originally from other States come to reside permanently in Louisiana, while many Louisianians emigrate elsewhere. The purpose of the law is patriotic, but entirely inconsistent with the liberal spirit which has always actuated the administration of the hospital, and calculated in the future to lower the standard of competency and impair the efficiency of its medical service. For reasons above given, I respectfully recommend that the Legislature be urged to repeal the law.

Thanks are due for many contributions and favors from the friends of the hospital, acknowledged in the accompanying list of donations prepared by Sister Agnes.

In conclusion I beg to commend the competent service rendered by Dr. F. W. Parham, the Assistant House Surgeon, and other officers associated with me in charge of their respective departments, and acknowledge our indebtedness, which we can repay only with gratitude, for the aid given in our medical work by the unfaltering attention of the Sisters of Charity. I desire, finally, to express my obligation to your honorable body for the kindly manner in which you have directed our medical work and promoted its usefulness through all the years of your administration.

Respectfully submitted,

A. B. MILES,
House Surgeon.

PATHOLOGICAL DEPARTMENT.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, January 1st, 1888. }

To the Honorable Board of Administrators of the Charity Hospital :

Gentlemen—I beg to report the following work done in this department during the year 1887, viz.:

| | |
|---------------------------------------------------------|------|
| Specimens of Urine examined..... | 1616 |
| Specimens of Sputa stained and examined for Bacteria | |
| Tuberculosis..... | 78 |
| Specimens of Pus examined..... | 2 |
| Specimens of Fluids examined..... | 17 |
| Specimens of Tumors examined..... | 72 |
| Specimens of Vomit examined..... | 3 |
| Specimens of milk examined..... | 3 |
| Autopsies held..... | 140 |
| Other Pathological specimens examined..... | 22 |
| Sections cut of 87 different specimens, 10 of each..... | 870 |
| Sections permanently mounted for collection..... | 40 |

Very respectfully,

H. D. SCHMIDT,

Pathologist.

REPORT OF THE AMBULANCE SERVICE, 1887.

Recapitulation of Ambulance Calls from January 1st to December 31st, 1887.

| | | Footling..... | 1 |
| Shoulder..... | 1 | | 1 |

MANNER OF DELIVERY.

| | |
|----------------------|-----|
| Naturally..... | 151 |
| By Forceps..... | 9 |
| Podalic Version..... | 1 |
| Craniotomy..... | 1 |

MORTALITY OF MOTHERS.

Of the 160 cases, 10 mothers died, making a mortality of a little more than 6 per cent.

CAUSES OF DEATH.

| | |
|-----------------------------------------|---|
| Puerperal Peritonitis..... | 2 |
| Puerperal Septicæmia..... | 3 |
| Uræmic Convulsions..... | 1 |
| Pyelitis..... | 1 |
| Sunstroke..... | 1 |
| Phthisis Pulmonalis..... | 1 |
| Shock from Operation of Embryotomy..... | 1 |

COMPLICATIONS OF CONFINEMENT.

| | |
|------------------------------------------------|-----|
| Delivered naturally without accident..... | 102 |
| Cord around the neck..... | 16 |
| Prolapse of Cord..... | 1 |
| Laceration of Perineum..... | 25 |
| Laceration of Labia..... | 1 |
| Prolapsus of the Anterior Lip of Os Uteri..... | 2 |
| Post Partum Hemorrhage..... | 4 |
| Inertia of Uterus | 2 |
| Coma..... | 1 |
| Rigid Os Uteri..... | 3 |
| Retained Membranes..... | 1 |
| Retained Placenta..... | 3 |
| Placenta Prævia..... | 1 |
| Hydrocephalic Head | 1 |

The number of children born was 162.

| | | | |
|-------------|----|-----------------|-----|
| Male..... | 87 | Living..... | 147 |
| Female..... | 75 | Still-born..... | 15 |

Most of the still-born children were delivered before the seventh month.
